STAT

Together with [] I talked with the Deputy Chief, FE, [] Chief, Administrative Staff, FE, both of whom returned from an extensive field trip. The net of what they said was that the [] TDY activities were in the support field - that [] should do the operational Records Management work in the field, and second, that there was no need in the FE field for an O&M officer, i.e., that the other types of management work could be done at Headquarters.
